

The survey was distributed to the nine partner universities of the SEA-EU alliance and was available for over a month.

Research group size
2 - 240
A few responses were provided by single individuals

Participants' research fields (FOS classification, n=215)*

* Participants were allowed multiple responses

Number of respondents per university

18 participants

27 participants

45 participants

30 participants

10 participants

10 participants

15 participants

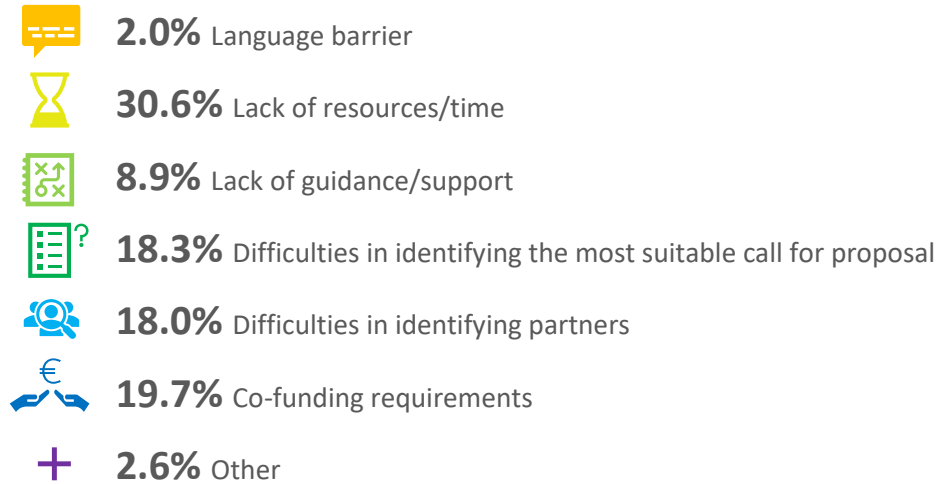

8 participants

17 participants

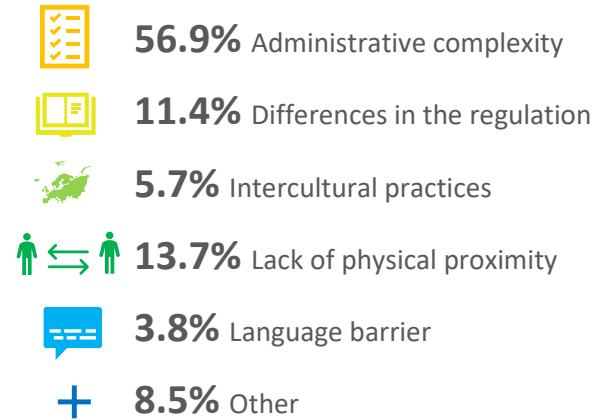

Research collaborations*

* Participants were allowed multiple responses

Challenges in setting up collaborations (n=350)

Challenges regarding ongoing collaborations (n=211)

Preferred collaboration (n=319)

52.4% European/International
27.6% National
20.1% Regional

Involvement in interdisciplinary projects (n=180)

Includes projects involving hard sciences, social and/or humanity sciences

Involvement with public & private stakeholders (n=180)

E.g. small & large industries, NGOs, schools, municipalities, government, policy makers, local and indigenous actors...

Percentage of research group which already collaborated with SEA EU partners (n=180)

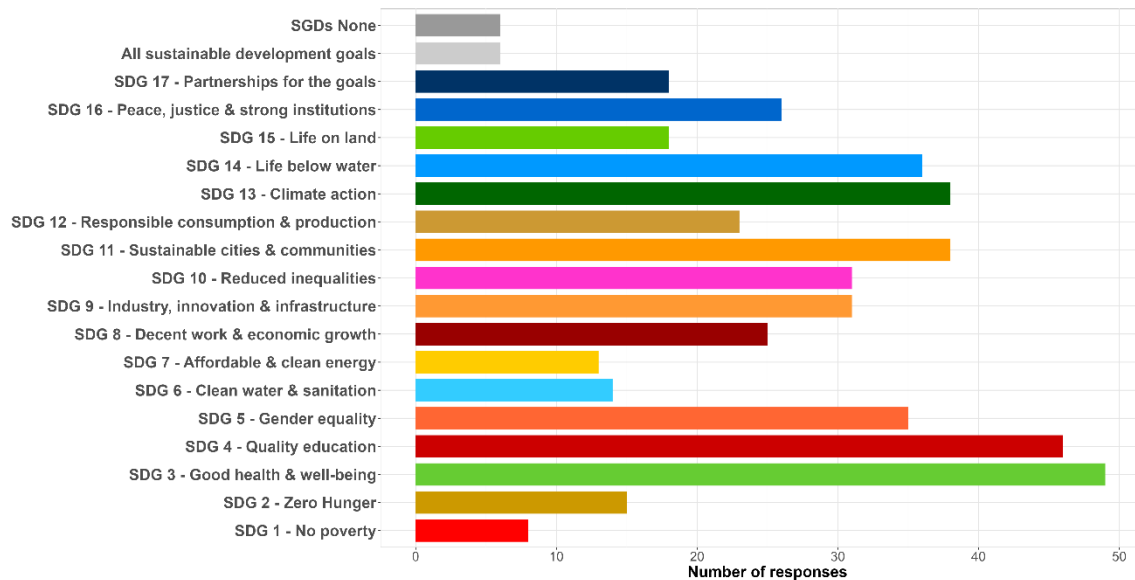

Percentage of respondents who are willing to collaborate with SEA EU partners (n=180)

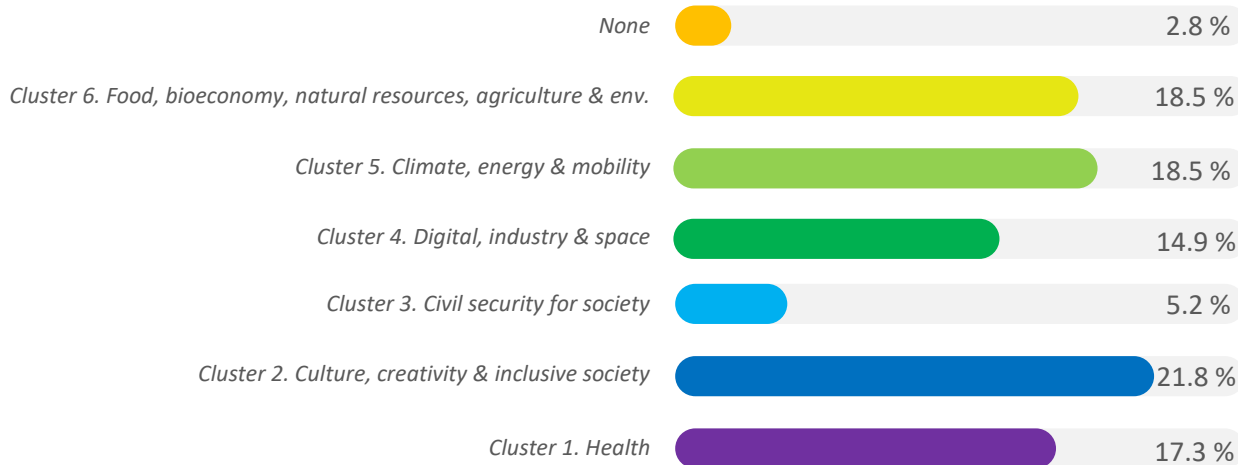

Research interests & societal challenges (using the SDGs and Horizon Europe)*

* Participants were allowed multiple responses

SDGs (n=476)

Horizon Europe Pillar 2 - Clusters (n=248)

Horizon Europe Five Missions - (n=191)

1. Adaptation to climate change

2. Cancer

3. Restore our ocean & waters by 2030

4. 100 climate-neutral & smart cities by 2030

5. A soil deal for Europe

None

Research practices*

* Participants were allowed multiple responses

Practices of Open Science (n=346)

What type of research facilities are used by the respondents?

(n=420)
